So, let's make some toys that help our babies develop some fine motor skills! The first toy is an actual rattle (which makes a noise), and the other one is a development toy made of three bright rings.

For the first rattle you will need: a small plastic box (from “Kinder surprise” egg); chunky yarn of bright colors – red, yellow, green; 3.5-4 mm hook.

Put some beads inside the plastic box, close it tightly and start crocheting around:

Ch 4, join to form a ring. 6 sc into the ring.

Row1: (2 sc in each sc) around – 12 sc

Row2: (sc in next sc, 2 sc in next sc) around – 18 sc

Row3: (sc in next 2 sc, 2 sc in next sc) around – 24 sc

Row4-9: sc around – 24 sc

Row10: (2 sc together) around – 12 sc

Row11-20: sc around – 12 sc

Work tight, stuff firmly. With green and yellow yarn embroider an ornament.

The second toy consists of three rings. To make it follow these steps:

1. Make a red-yellow ring:

Ch 4, join to form a ring. 6 sc into the ring.

Row1: sc around – 6 sc

Work as many rows as you wish changing the yarn every five rows.

2. Make a blue ring:

Do the same as with the first ring, changing colors every other row.

3. Make a green-white ring:

For this ring you will need small Styrofoam balls

With green yarn, ch 4, join to form a ring. 6 sc into the ring.

Row1: (2 sc in each sc) around – 12 sc

Row2: (sc in next sc, 2 sc in next sc) around – 18 sc

Row3: sc around – 18 sc

Row4: (2 sc together) around – 6 sc

Row5-13: sc around, changing colors every three rows – 6 sc

Repeat from the first row, only this time crocheting the ball around with the white yarn.

Repeat several times until you get the desired length.
